

When we all had to stay Home

A COVID-19 TALE BY NURTURE NIGERIA

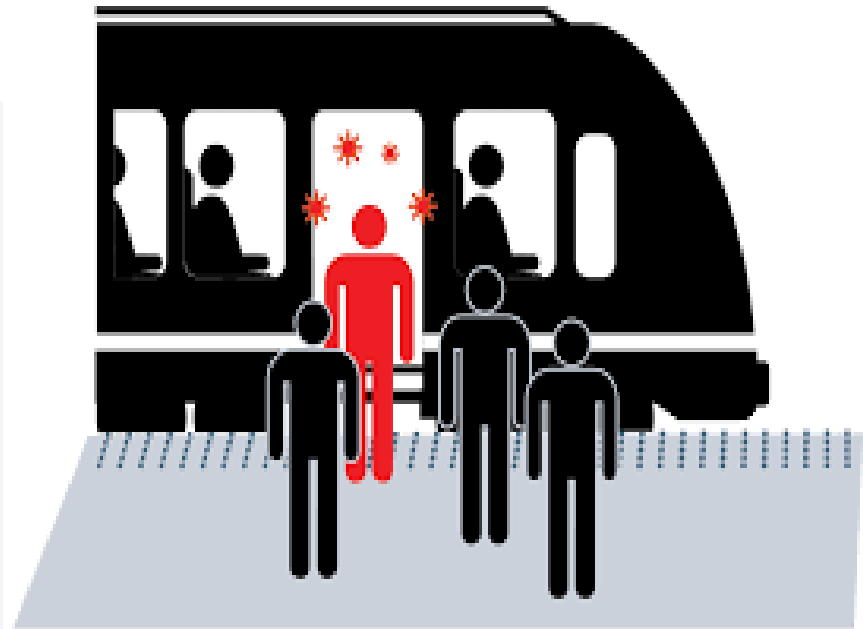

It was first mentioned in the news; a new virus was making people sick in China and other countries.

The Virus is called Covid-19. Covid- 19 means; Corona Virus Disease 2019.

Anyone who got infected by the virus, became really ill and could pass it to other people.

As one person passed the virus to another, people all over the world fell sick.

In school, we were told things to do to keep the virus away.

As the virus kept infecting a lot of people, the government had to close our schools so we could all be safe.

Mummies and Daddies were also told to stay at home and their offices shut so they could be safe.

Now, we are all at home so everyone can be safe and not keep helping the virus travel around.

Staying at home meant I would miss my friends in school and all the fun things we do together.

But, I'm happy I can be at home with everyone I love being around me.

We are all safe and happy together!

We get to do a lot of fun things together.

We also get to pray together as a family.

We pray for people who are sick and can't be with their families.

We pray for people who have lost their loved ones that were very sick from the virus and died .

We pray that soon a cure will be found
and the virus goes away.

Then we can all go back to school and be happy like ever before.

THE END
